

# Sadegh Mohebbi

DevOps Engineer, SRE

## Experience

### Profile

I'm Sadegh Mohebbi, 29 years old. I'm a Software Developer and DevOps Engineer. I constantly looking for ways to improve my skills. In my career, I'm so hands-on and I've always strived for long, focused periods of programming. My MBTI test result is INTP.

### DevOps TeamLead, DevOps Engineer, System Admin

**Taaghche (taaghche.com) | Full Time** | 2020 Dec - Present

- **CI/CD Pipeline:** Implementing complete ci/cd pipeline for more than 15 microservices written in asp.net, node.js and python using Gitlab ci
- **Monitoring:** Building full monitoring system with grafana, prometheus and grafana-loki, Designing multiple grafana dashboards and advanced alerting system (using alertmanager) defined with multiple levels and channels
- **System Administration:** Controlling and managing so many infra systems such as: Issabel (voip), Docker Registry (as a part of ci/cd pipeline process), VMware ESXi, Wordpress (LAMP stack), RabbitMQ Cluster, Ubuntu Linux Servers, Windows Servers, SQL Server, Redis, MongoDB, HAProxy (load balancing), ...
- **Containerization:** Dockerizing so many backend/frontend projects plus refactoring and automating deployment by gitlab-ci+docker+docker-compose
- **Node.js Backend Development:** Developing and Maintaining some node.js backend projects in microservice environment such as API gateway and more projects and scripts
- Building and Maintaining Backup plans
- **Microsoft SQL Server Database Administration:** improve performance by 30% with splitting databases and clustering sql server. Currently my focus is on sql server database performance improvement and it's concepts.

## ● Junior Software Developer

**Raypo | Part Time** | 2017 Feb - 2017 May

working on android application (resellers side) as my first job experience, I'm so happy to talk about it

## Course

2022 Oct  
- 2022 Dec

### **LINUX NETWORK PROFESSIONAL (LPIC-2)**

*Fanavaran Anisa (iran linux house), Tehran (in-site)*  
certification id: ILH1201286913737

2022 Mar  
- 2022 Apr

### **CERTIFIED LINUX ADMINISTRATOR (LPIC-1)**

*Fanavaran Anisa (iran linux house), Tehran (in-site)*  
centrifcation id: ILH1100179911660

2021 Jan  
- 2021 Dec

### **COMPUTER SCIENCE**

*CS50x Iran, Tehran*

Originaly held by Harvard College (CS50), this is my certificate link:

<https://cs50.harvard.edu/certificates/3fbb5114-554f-4342-b89f-85ead7eb09a0>

2019 Aug  
- 2020 Aug

### **NODE JS BACKEND DEVELOPMENT BOOTCAMP**

*Maktab Sharif (maktabsharif.ir), Tehran*

## Education

## ● Bachelor of Economics

*Imam Sadiq University, Tehran | 2015 Oct - 2020 Dec*

continued from bachelor to master degree but with no ending, graduated with bachelor degree and drop out from master. I'm so interested in stertups and economics because of my passion to studying.

## Projects

### **OPEN SOURCE PROJECTS**

*Publised on Github*

<https://github.com/sadeghmohebbi>
